

About PSA

Summary

Wyoming Parent School Association (PSA) is a single parent organization serving the entire school district. Its mission is to support the Wyoming City Schools through volunteerism and fundraising. Through its Parent Advisory Council (PAC) teams, PSA recruits homeroom parents and oversees classroom and grade level activities, along with providing two-way communication between parents and school administrators. Every year, PSA donates countless hours of volunteer time and, through various fundraising programs, typically raises over \$100,000. These funds then are disbursed to the schools & supporting organizations to fund specific needs & programs.

PSA Disbursements

PSA's ability to fund the requested needs of the Wyoming City Schools depends on the success of its fundraising events and activities. The net proceeds from the prior school year's fundraisers, plus any prior year surplus, are used to fulfill requests for the following school year. In its history, PSA has provided funding for technology improvements for all schools, enrichment programs, scholastic competitions and clubs, teacher appreciation events, school trips, 8th grade ceremony, high school graduation and more.
